2020 – Curso em Vídeo

### • Algorithms and Programming Logic (Basic to Advanced)

2020 – Geek University

## LANGUAGES

Portuguese **C2**

English **B2**

Spanish **A1**

## STATEMENT

Junior FullStack Developer, father, and skater. After years in engineering and marketing, I decided to venture into an old passion, programming!

After a year immersed in this new world, doing some 'tricks' in lines of code, 'flips and slides' with the languages and frameworks, I'm prepared to overcome obstacles and face any challenges that you may present me. Besides this adventurous side, I also bring responsibility, resilience, and dedication acquired from fatherhood to the table.

## HARD SKILLS

JavaScript

TypeScript

HTML5

CSS3

Node.js

NestJS

jQuery

Java

Angular

Bootstrap

Git

Photoshop

## PROJECTS

• Development of an API to provide user data to a mobile application, using TypeScript, Node.js, NestJS, TypeORM, Microsoft SQL Server, and Git.

2021 – VOQIN'

• Development of new features and bug fixes on a virtual event platform, using TypeScript, HTML5, CSS3, Node.js, Angular, Bootstrap 3, and Git.

2021 – VOQIN'
